

This form is to be used only to add a related individual to an approved and actively licensed modified collector motor vehicle. For this purpose, ICBC adopts the “related individual” definition as used in the Property Transfer Tax Act: (a) a person’s spouse (legally married or living for a continuous period of at least 2 years with another person in a marriage-like relationship), child, grandchild, great-grandchild, parent, grandparent, great-grandparent, or sibling, or (b) the spouse of a person’s child, grandchild or great-grandchild, or (c) the child, parent, grandparent or great-grandparent of a person’s spouse.

**NOTE:** Only the individual who was initially approved for the Collector program may add a related individual to the registered ownership of a modified collector motor vehicle.

If there have been any other changes or modifications to your vehicle since it was approved, then you must re-apply to the Collector program.

If more than one related individual is to be added, each individual will need to complete this form. Keep the applications together so they can be processed at the same time.

In most cases there will be a **new plate fee** along with other fees (e.g. transfer of ownership/cancel policy) to add a related individual. If there are multiple owners added in the same transaction, the fees will apply to that transaction as opposed to the number of owners added.

## Eligibility Criteria

### STEP 1 – Vehicle details

REGISTRATION NUMBER	MODEL YEAR	MAKE	MODEL	BODY STYLE	VEHICLE IDENTIFICATION NUMBER (VIN)

### STEP 2 – Vehicle condition requirements

**Regardless of the vehicle’s age, it must continue to meet ALL of the condition requirements to be eligible for the Collector Vehicle Program.**

By checking all of the boxes below, I confirm the vehicle is in the following condition:

- Vehicle exterior** – The vehicle’s exterior is clean, detailed and in excellent condition with no dents, scrapes, chips, paint blemishes, bubbling, rust, or visible primer. If applicable, the convertible top has no damage and is in good working order.
- Vehicle interior** – The vehicle’s interior is clean, detailed and in excellent condition with no tears, stains, or significant wear. Minor neat repairs to the original upholstery are acceptable.
- Vehicle repairs** – All repairs to the vehicle are completed according to professional practices and standards.
- Engine/Engine compartment** – The engine and engine compartment is clean and detailed with no damaged, deteriorated or rusted parts.
- Stickers and advertising** – The vehicle has **no stickers or advertising** of any kind. Exceptions are allowed to show affiliation with a collector vehicle club or for original dealer nameplates or decals that were dealer or factory installed.
- Vehicle photographs** – To the best of my knowledge, information and belief, the photos of the vehicle previously submitted are still an accurate representation of the current vehicle condition.

### STEP 3 – Vehicle use declaration

**Collector vehicles must not at any time be used for business use or driving to or from, or part way to or from, work or school.**

I confirm the following is true:

- The collector vehicle will be used solely for pleasure purposes, and cannot be used for general transportation, and will not at any time be used for driving to or from or part way to or from work or school or for any business use.

**Note:** Upon licensing and insuring and on subsequent renewals, you will be required to inform your Autoplan broker of the licence plate number of your non-collector general transportation vehicle. If the only vehicle you have is your collector vehicle, you may still display collector plates on your motor vehicle, however you won’t qualify for the reduced collector insurance premium. In addition, the collector motor vehicle must be rated for pleasure use only, and must not at any time be used for driving to or from, or part way to or from, work or school or for any business purpose or commercial use.

## STEP 4 – Personal information

If your application is approved, a plate(s) will be sent to the broker noted below. If the plate(s) is not issued within 90 days, the broker will return the plate(s) to ICBC.

#### WARNING – INSURANCE COVERAGE AND CONTINUED ELIGIBILITY IN THE COLLECTOR VEHICLE PROGRAM

Insurance coverage may be forfeited if the vehicle described above is used contrary to the statements made above under "For Insurance Purposes."

If these conditions are not met, I understand that the vehicle will not be eligible as a modified collector vehicle and the collector vehicle insurance rate class and that I must immediately contact an Autoplan broker to obtain appropriate licensing and insurance for my vehicle.

I acknowledge that if the vehicle is used for more than pleasure purposes at any time after the initial application and approved as a Collector vehicle, the vehicle is no longer considered to be eligible for the Collector Vehicle Program.

Where the applicant gives false particulars to the prejudice of the corporation or knowingly misrepresents or fails to disclose in this application any fact required to be stated herein, or uses the motor vehicle contrary to the statement made above, insurance coverage may be forfeited. ICBC reserves the right to apply additional qualifying criteria when determining a vehicle's collector vehicle eligibility in accordance with the *Motor Vehicle Act* Regulations.
